

# Foster Certificate

**Malibu**

## Case History

Malibu is a beautiful, big rabbit, probably a Giant Chinchilla. She was found abandoned in a Langley schoolyard. A teacher at the school saved her.

Malibu is a friendly, very personable bunny. She was in a foster home when she slipped and tore her Achilles tendon. This is a very painful injury that will never completely heal.

After several months of care Malibu gets around well but should always be kept on non slippery, soft surfaces. She is a very deserving rabbit who awaits her long-term, loving home.
